Applications should be given to your child’s counselor who will notify you if your application is approved. Applications can be submitted anytime throughout the year, starting August 20.

(If you have students in multiple schools – pick just one of the counselors/administrators.)

Dear Parent/Guardian,

For the 2024/2025 school year only students who qualify for the government Free/Reduced Program will get their lunches at the F/R discounted price. All others will be required to pay full price for lunch. Tredyffrin & Easttown Care is a local non-profit that helps families in our community in a variety of ways when emergencies occur or situations become complicated. T&E Care recognizes that school meals can be difficult for some families to afford on a regular basis, especially if their income is just over the F/R Program's limits. T&E Care has a program that can provide a limited subsidy for these expenses for qualifying students.

Who will qualify? You *must FIRST have applied for and been denied* participation in the Free/Reduced Program run through the school district before applying for the T&E Care program. Students will be eligible for our program based on household income (see application for income guidelines). The T&E Care program is set to be a transition for families making just too much money to qualify for free/reduced assistance. The Free/Reduced Program application is on the TESD website (www.tesd.net) – under Departments, Food & Nutrition Services.

Why must I first apply to the Free/Reduced Program before applying for the T&E Care program? If you qualify for the Free/Reduced Program, it offers better assistance for your child's meals, plus additional options for assistance for your child at school (dental assistance, field trip waivers, test application waivers, etc.). If you can qualify for that program – it is better for your child(ren). More information at <https://www.tecare.org/assistance/schoollunches/>.

How do I apply for the T&E Care Program? You must complete the attached confidential application and give it to a counselor. The application can also be found on the TESD or the T&E Care websites.

Is there a deadline? Applications can be submitted anytime during the school year (after August 20).

How is income confirmed? The head of the household must certify with a signature that he/she is in compliance with the income guidelines described on the application. If you need an exception to these criteria – please contact us at lunchhelp@tecare.org.

How will my child(ren) receive the benefit? For the 2024/2025 year, qualified elementary students will receive \$40/month, middle school students will receive \$50/month, and CHS students will receive \$60/month. (An exception is made in June when less than the full amount may be paid to all students.) These deposits will be automatically placed into the child's point-of-sale account during the first week of each month.

Will my child receive the money each month? If your child does not use the funds over a few months and a positive balance starts to build up, then the funds will not be added until we see that the child is back to buying meals again.

What is the source of funding for T&E Care's program? Most of the funding comes from donations from community members who recognize the importance of healthy meals for all children.

Who will know that my child is getting this assistance? The food service department will know, your child's counselor and principal may know, and the T&E Care Board will know. That's it, unless you tell people. We totally understand the need for privacy in this type of request.

Can the money be used for breakfast or lunch? The funds can be used for any food offered through the food services department – it's up to you and your child.

Where should the application be submitted? Applications should be given to your child's counselor, who will notify you if your application is approved. If you have more than one child (and/or more than one counselor) – just choose any one of the counselors. (One application per household.)
